ADANECH WALLE TSEHAY

Full-Stack Web Developer

Location: Ethiopia | **Phone:** +251 929 270 098

Email: adanechwalle2121@gmail.com | **GitHub:** github.com/A16-AY

PROFESSIONAL SUMMARY

Passionate and detail-oriented Full-Stack Web Developer trained in building and deploying modern web applications. Skilled in building responsive frontend interfaces using React and crafting robust backend RESTful APIs with Node.js, Express, and MySQL. Adept at collaborative version control using Git/GitHub and dedicated to writing clean, maintainable code.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, CSS Modules
- **Backend:** Node.js, Express.js, RESTful APIs
- **Databases:** MySQL
- **Tools & Platforms:** Git, GitHub, Postman, Vite, Hostinger, Netlify, Trello

KEY PROJECTS

1. ChatGPT Clone Application

- Developed an interactive AI chatbot application inspired by OpenAI's ChatGPT.
- Integrated AI API endpoints to handle dynamic user prompts, continuous conversation context, and real-time response rendering.
- Built a sleek, dark-mode user interface using **React.js** focusing on clean UI/UX and seamless user interaction.

2. Evangadi Forum – Full-Stack Q&A Platform

- Developed a full-stack Q&A web application allowing registered users to ask questions, post answers, and interact in real-time.
- Built dynamic user interfaces with **React** and created backend API endpoints with **Node.js** & **Express**.
- Integrated **MySQL** database for user authentication and managing question/answer records securely.

3. Netflix Clone Application

- Constructed a movie streaming UI clone using **React.js** and external movie APIs.
- Implemented responsive video showcase sections, dynamic banners, and video playback features.
- Deployed the frontend preview using **Netlify** and managed team workflow via **GitHub Pull Requests**.

4. Personal Portfolio Website

- Built a personal single-page portfolio (SPA) showcasing projects, technical skills, and interactive navigation elements.
- Customized dark-mode aesthetic layout using responsive **HTML5** and **CSS3**.
